Total State Grants \$ 50,900,000

Total \$ 57,800,000

LWCF Success in Kansas

The Land and Water Conservation Fund (LWCF) has provided funding to help protect some of Kansas' most special places and ensure recreational access for hunting, fishing and other outdoor activities. Kansas has received approximately \$58 million in LWCF funding over the past five decades, protecting places such as Flint Hills Conservation Area, Marais des Cygnes National Wildlife Refuge and Brown vs. Board of Education National Historic Site.

Forest Legacy Program (FLP) grants are also funded under LWCF, to help protect working forests. The FLP cost-share funding supports timber sector jobs and sustainable forest operations while enhancing wildlife habitat, water quality and recreation. The FLP assists states and private forest owners to maintain working forest lands through matching grants for permanent conservation easement and fee acquisitions. Kansas received its first FLP grant in FY2012, which will be used to protect air and water quality, wildlife habitat, access for recreation and other public benefits provided by forests.

LWCF state assistance grants have further supported hundreds of projects across Kansas' state and local parks including El Dorado State Park Campground in Chautauqua County and Crawford State Park.

Economic Benefits

Active outdoor recreation is an important part of the Kansas economy. The Outdoor Industry Association has found that active outdoor recreation generates \$7.3 billion in consumer spending in Kansas, 71,000 jobs which generate \$1.8 billion in wages and salaries, and produces nearly \$481 million annually in state and local tax revenue. Further, the U.S. Census reports that each year over 1.3 million people hunt, fish, or enjoy wildlife-watching in Kansas, contributing \$839 million in wildlife recreation spending to the state economy.

LWCF is a simple idea: that a portion of offshore drilling fees should be used to protect important land and water for all Americans. These are not taxpayer dollars. Unfortunately, the promise of LWCF has been broken. The program is authorized to receive up to \$900 million each year—but most of these funds have been diverted elsewhere. Now is the time to fix this and ensure that funds retained in the LWCF account are used for their intended conservation and recreation purposes.

LWCF supports the acquisition of land and conservation easements to protect our national parks, wildlife refuges, forests, trails, and BLM sites, grants funds to the states for local and state park needs, protects critical wildlife habitat, watersheds and recreational access, and conserves working farms, ranches and forestlands that enhance local economies.

LWCF in Kansas

Flint Hills Legacy Conservation Area

Located in eastern Kansas, the Conservation Area is part of a landscape-scale, strategic habitat conservation effort to protect a unique, highly diverse, and largely unfragmented area of tallgrass prairie. Using conservation easements, important habitat for a diverse array of grassland-dependent species has been protected. The Flint Hills are particularly important for grassland birds, serve as a staging area for numerous raptors, and comprise North America's only north-south tallgrass prairie corridor used extensively by migrants. Landowners who protect their lands from future development with conservation easements gain meaningful income and ensure that the land will remain in agriculture production. While landowners with a conservation easement still control access to their private property, preservation of the Flint Hills ensures that wildlife and clean water will be plentiful for generations to come, which translates into enhanced future recreational opportunities.

Fiscal Year 2019 Agency Priority Project List for Kansas

Agency	Project	Amount	Delegation
FWS	Flint Hills Legacy CA	\$1,000,000	Roberts, Moran/ Marshall, Jenkins

The Fiscal Year 2019 President's Budget:

The President's Fiscal Year 2019 Budget proposal would gut the Land and Water Conservation Fund, reducing the program's budget by over 100% from enacted levels. Under this proposal, no projects would be funded for federal land conservation at America's National Parks, National Forests, National Wildlife Refuges, and other public lands. State grant programs to support local recreation facilities, state parks, wildlife habitat, and other community conservation priorities would also be completely wiped out. Without robust LWCF funding in FY 2019, Kansas' conservation and outdoor recreation needs could be put on hold or lost forever.

FY18 Enacted vs. FY19 Budget Request Comparison

Agency/Program	FY18 Enacted Funding	FY19 President's Budget
National Park Service	\$46,935,000	- \$1,212,000*
Bureau of Land Management	\$24,916,000	- \$6,608,000*
U.S. Forest Service	\$64,337,000	- \$17,000,000*
Fish and Wildlife Service	\$53,839,000	\$6,953,000
Sec. 6 Habitat Conservation	\$19,638,000	\$0
Forest Legacy Program	\$67,025,000	- \$4,000,000*
Highlands Conservation Act	\$10,000,000	\$0
American Battlefield Protection	\$10,000,000	\$0
State & Local Assistance	\$124,006,000	\$0
TOTAL	\$425,000,000	- \$12,867,000*

*proposed rescission of already appropriated LWCF funds
